PROJECTS

Movie Recommendation using URL

Aug 2022 - Nov 2022

<https://github.com/vedant48/collegeproject>

I have developed a movie recommendation system to assist you in finding the greatest movies to watch. Simply input a movie URL and my algorithm will propose comparable films to you.

College Website

Mar 2022 - Apr 2022

<https://myiitsm.netlify.app/index.html>

Made dummy college website for my college IIIT Manipur.

Google Meet UI Clone

Jun 2022 - Present

<https://bit.ly/3bfulU4>

Started working on Google Meet UI Clone because I felt that I can optimise some features and also change some UI for better visual experience. After that I'm working on real website that I will develop according to my UI Clone of Google Meet.

E-commerce website

Jul 2022 - Present

<https://vedantandstoreco.netlify.app/>

Developed ecommerce website using fakestore API

Movie Website

Jul 2022 - Present

<https://github.com/vedant48/movie-website>

Working on a movie website with TMDB API which will recommend movie according to your mood and category. Will add more features like rating in near future.
